

MASONVILLE COVE IMPACT REPORT

A Decade of Dedication 2009-2019

Masonville Cove is a model for environmental restoration and community engagement. The MDOT Maryland Port Administration has created new partnerships with community and public interest groups to transform one of the most contaminated sites along the banks of the Patapsco River into an area that benefits people, wildlife, and the Port of Baltimore.

35K

students served through Masonville Cove programs

\$2M

\$4M

generated from \$2M in MDOT MPA seed funding

4,000

VOLUNTEERS donating over 20,000 hours

MORE THAN

61,000

tons of trash removed, including debris dating back to the Great Baltimore Fire of 1904
